SUBJECT CATALOG OF PERIODICALS

INCLUDING SELECTED SERIALS

This catalog lists, by subject, approximately 8,045 periodicals in the collection of the San Francisco Public Library. It includes periodicals currently received and those which have ceased publication, as well as a selection of government documents, annuals, symposiums, yearbooks, transactions and proceedings.

The catalog lists holdings of Main Library subject departments, Civic Center, and the Business Branch Library. If a title is available to the public in more than one of these locations, an entry has been made for each location.

The list of subject headings was compiled from the Library of Congress SUBJECT HEADINGS, and Ulrich's INTERNATIONAL PERIODICAL DIRECTORY. Brief "see" and "see also" references are included. Each title can be entered under a maximum of five subject headings, and each entry includes title, place of publication, call number, holdings statement and department location. If the title listing does not show a holdings statement, it can be presumed that the title is on order and the user may check with the department to see if issues have arrived.

The filing sequence possible in programming this computer gives the following order for sub-divisions of a subject:

ART	(single word)
ART - GALLERIES AND MUSEUMS	(sub-division with dash)
ART - STUDY AND TEACHING	(sub-division with dash)
ART, ECCLESIASTICAL	(sub-division with comma)
ART AUCTIONS	(word phrase)
ART INDUSTRIES	(word phrase)

This catalog was produced as part of our Computerized Serials System, which includes an arrival (check-in) program, binding notification form and update of binding record, subscription order lists, plus additional catalogs arranged by title and by foreign language. The computer programs are run by the EDP Center of the City and County of San Francisco utilizing an IBM 360/50 computer.

We gratefully acknowledge funds from the Bay Area Reference Center Project, which made possible the publication and distribution of this catalog.
